

PistenBully Paana

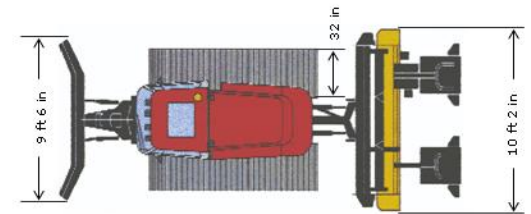

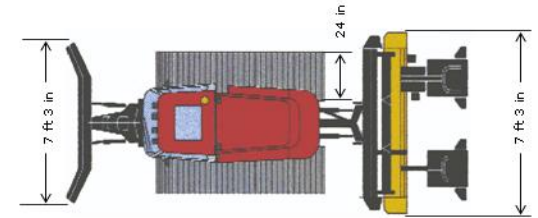

The PistenBully Paana has the agility of a small vehicle and the power of a large machine. It is designed to cope with demanding cross country trail conditions. Those in the Scandinavian Nordic business have been lauding its durability, power and price-performance ratio for over 20 years now. A brawny Cummins engine, high grade Rexroth hydraulics and strong surrounding equipment safeguard the performance and reliability of this grooming vehicle.

The one man cab is ergonomically designed such that it is easy and convenient to use the PistenBully Paana. The operator sits in the middle of the cab and has a clear view in every direction—a key comfort and safety factor.

Thanks to the two-stage tiller system and the efficient track setting pans, a cross country ski trail conforming to FIS standards can be set in just one pass. The tracks are designed for low snow conditions. The open profile (G style) has a standard height of 3 inches. For sensitive areas a low profile height of only 2.6 inches is available.

As an option the double tracksetter Paana "Competition" is available.

Dimensions		
Width across steel tracks (2.1m):	2100 mm	83 in
Width across steel tracks (2.5m):	2500 mm	98 in
Overall length w/blade, tiller, tracksetter	7300 mm	23ft 11 in
Overall height:	2230 mm	88 in
Ground clearance:	210 mm	8.3 in
Vehicle weight		
Weight (vehicle and 620 mm tracks):	3000 kg	6615 lb
Weight including attachments:	3750 kg	8270 lb
Weight (vehicle and 820 mm tracks):	3100 kg	6835 lb
Weight including attachments:	3850 kg	8490 lb

Engine		
Engine:	Cummins QSB4.5 4 cyl. diesel Tier III	
Displacement:	275 in ³	4.5 liter
Output:	115 hp @ 2000 rpm	85 kW
Torque:	360 ft lbs @ 1500 rpm	488 Nm
Fuel capacity:	32 gallons	120 liters
Performance data		
Speed, continuously variable:	0 - 12 mph	0 - 20 km/h
Fuel usage:	from 2.6 gal / hr	0 - 10 l / hr
Specific ground pressure:		
Vehicle with 620 mm tracks:	1.31 psi	0.092 kg / cm ²
Vehicle with 820 mm tracks:	0.99 psi	0.070 kg / cm ²
