## 2001 Pistenbully 200

Manufacturer	Kassbohrer
Model:	200
Fuel	Mercedes 906LA 280 hp
Hours	8639
Options	3.9 M Kombi Tracks, fenders, U blade with quick mount

**Comments:** The PB 200 is the workhorse of the PB line. it is the most popular machine among ski areas and grooming operations. this machine was a trade from a nordic operation where they converted the blade to a U blade, and made it quick release so you can remove the blade without getting out of the cab.

### Vehicle Statistics

- 280 hp MB 906LA engine
- pneumatic tires
- Steering wheel control
- all way blade
- 3.9 meter Kombi tracks
- 13 feet overall width
- PT2000 tiller

**PETERSON EQUIPMENT COMPANY** has been in the snowcat business for over 40 years. As the original dealer for Thiokol snowcats, Peterson Equipment supplied most ski areas, utility companies and snow travelers with the vehicles needed to get the job done. In 1998 Peterson Equipment teamed up with Kassbohrer to bring the Pistenbully line to the intermountain west. Pistenbully manufactures machines for all needs whether you are looking for the light and nimble PB Scout, or the 500 hp of the PB600 Polar, we can help you find the machine for your needs
